

# How a SCLC Patient is Outliving the Odds

Montessa Lee, a 14-year Small Cell Lung Cancer survivor, helps us understand more about SCLC and how it's different from NSCLC. We'll also hear from Dr. Triparna Sen about her LCFA-funded SCLC research project which seeks to re-engage the immune system to target and eliminate SCLC tumors by increasing the immune system's ability to eliminate the tumor cells.

## A Block Guest:

- Starting timecode: 00:00
- Speaker bio: [Montessa Lee](#) is an educator, author, patient advocate, and 14-year survivor of Small Cell Lung Cancer.

- Resources:
  - [Dr. Charles Rudin on treating patients with Small Cell Lung Cancer](#)
  - [New combination therapy approved for Small Cell Lung Cancer](#)
  - [Hope With Answers video series on Small Cell Lung Cancer](#)

B Block Guest: Dr. Triparna Sen

- Starting timecode: 15:41
- Speaker bio: [Dr. Triparna Sen, Memorial Sloan Kettering Cancer Center, New York](#)

- Resources:
  - [Dr. Sen's LCFA-funded research project](#)

LCFA's mission is the improvement in survivorship of lung cancer patients through the funding of transformative science.

While raising funds to support lung cancer research, LCFA will raise the public's awareness and serve as a resource for patients or anyone seeking answers, hope, and access to updated treatment information, scientific investigation, and clinical trials.

You can also join the conversation with LCFA on [Facebook](#), [Twitter](#), and [Instagram](#).
